

TO THE WORKERS OF THE CONTRACT WORK COOPERATIVES IN THE MEAT/SALAMI SECTOR

Our struggle, our protests and our strike are not against you, but also for you!

From some years in the firms of workmanship of the meats you/he/she has become normal to submit more and more big parts some workmanship in contract to cooperatives. Why does this happens?

The reason is very simple: **To Spend Less, Saving On the Salary Of the Workers** also saving **On Your Salary.**

Do we depart from the form of assumption, are these workers partners of the cooperatives that assume them, but how much are I/you/they informed of what he/she wants to say being partners? **Do you** know which rights and which obligations do you have as partner worker?

How partner you have the right to participate in the meetings, to decide the life of the cooperative and to elect the President and the organs of the same one. In reality however you live only the obligations and the risks of the being partner:

- 1) the cooperative can decide to pay less as foreseen by the national contracts of job;
- 2) at times to be partner is held back you a quota of salary;
- 3) you can be more easily dismissed that a wage earner.

We want You to have the same rights of the other workers of the firms that you/they work the meat: straight to work at least 40 guaranteed hours to the week, one month of paid vacations, 108 hours of remunerated permission, thirteenth and fourteenth mensilità, illness and accident anticipated by the firm and paid to 100%, extraordinary paid.

Don't forget then yourself a really perverse other form of saving, **The Saving On the Safety Of the Job.** More and more the employees of the coops are often also accidents serious subjects, this it is not more acceptable, to go to work cannot be a risk for his/her own safety.

We say **No to the illegitimate Contracts** because they reduce the rights of everybody but also and above all **Yours** and those of the workers of the cooperatives, ours **Is not A Battle Against You** but a struggle that we want to make **With You** guarantee the rights of everybody.

We know that for you and for your colleagues at times it is difficult to make to be worth your rights, for the retaliations that you could suffer; for this we ask you to unite you to us for an only battle. **TOGETHER WE ARE STRONGER!** Turn to the Organizations Sindacali Fai CISL, FLAI CGIL or UILA UIL to have all the information of which you have need.

We invite you and your colleagues to strike with all the other workers of our sector on Friday 22nd June 2007 (whole day). **We do invite you as well to take part to the demonstration that will take place on Friday 22nd June 2007 at 9:00 a.m. at piazza Papa Giovanni XXIII (the pig monument square) at Castelnuovo Rangone.**
